

KEYS TO SUCCESS

Organizational Development: *Building Productive Teamwork*

**“Talent wins games,
but teamwork and
intelligence wins
championships.”**

- Michael Jordan

There is no greater asset to a company than its people, and there is no greater resource than its people working together in cohesive and productive teams.

As an entrepreneur with a growing business, at some point you will need to add people to your organization. This requires building a true team and bringing together people who have

different motivating factors, personalities and manners of working with others.

When a team functions as “one,” people **increase productivity and efficiency by taking on more complex tasks, communicating openly, and leveraging each team member’s strengths and unique skills.**

Our **Building Productive Teamwork** program brings functional team members and leaders together to work in a united fashion by:

- Assuring and understanding a committed to the vision, mission, values and goals of the organization which are supported by the team(s);
- Creating a trusting work environment in which people are comfortable taking responsible risks in communicating, advocating positions and taking coordinated actions to achieve successful outcomes.;
- Developing a work place climate that is open, honest and respectful, where team members feel free to express their thoughts, opinions and potential solutions to problems;
- Enhancing among individuals a strong sense of the importance of teamwork by developing team norms or relationship guidelines together resulting in functional proactive teams; and
- Developing together agreed-upon procedures for diagnosing, analyzing, and resolving teamwork problems and conflicts.
